

Hands-On Activity 3 Reflection Sheet

CSCI 6907/4907 · Modern GenAI in Software Development

Name & GWID: _____ Date: _____

Directions: Fill in Table 1 during Step 1 and Table 2 during Step 4. Once you have finished the activity, answer the two reflection questions by hand without using any AI tool, and turn this sheet in before you leave.

Table 1: Step 1 Subagent Team Design Table

Agent	Role	Receives from (who, and what)	Hands off to (who, and what)

Table 2: Step 4 Trace Table

Rule from BRIEF.md	requirements.md	user-stories.md	test-checklist.md
Closed Monday and Tuesday			
1 to 6 people per booking			
Anyone under 12 must come with an adult			

Graded reflection questions on next page!

1. Describe one handoff from your design in Step 1: which two agents, and exactly what information passes between them. Then describe one point in your design where a human should approve the work before the team continues, and explain why that point needs a human rather than another agent.

2. Look at your trace table from Step 4. Did any of the café's rules change or go missing on its way from ``BRIEF.md`` to ``test-checklist.md`` as the work passed from one agent to the next? Describe what happened to one rule and explain why you think it happened.
